

Aegify BA-Vendor Manager™

THE NEED

Until today, healthcare organizations had no easy way to manage all their Business Associates (BAs) and Vendors. Those that don't have good systems in place are at great risk for significant government fines and data breaches. Compliance professionals face these two challenges:

- No integrated and automated management solution available to provide proper HIPAA oversight ensuring all BAs and Vendors are compliant
- Multiple sanctions databases must be continuously monitored such as OIG exclusion database, SAM/GSA, State Medicaid exclusion, Dun and Bradstreet DB and OFAC lists

Effective, Scalable BA and Vendor Management:

- **BA & Vendor RSC (Risk, Security and Compliance)**
- **BAA (BA Agreement) and HIPAA Report of Compliance (HROC)**
- **Pre- or post-contract sanctions and exclusions checking**
- **Continuous monitoring**

RALEIGH ORTHOPAEDIC

\$750k BA related fine, April 2016

**North Memorial
Health Care**

\$1.55mm BA related fine, March 2016

**BA & VENDOR
OVERSIGHTS**

COST

**\$750,000,
\$1,550,000,
or more**

FIGHT BACK

With Aegify BA-Vendor Manager, you'll easily:

- Diagnose security vulnerabilities and compliance liabilities due to your BAs and Vendors
- Receive easy instructions to cure existing problems
- Protect yourself against future breaches with Aegify's AlwaysOn™ BA and Vendor monitoring tools

"HIPAA's obligation on covered entities to obtain business associate agreements is more than a mere check-the-box paperwork exercise. It is critical for entities to know to whom they are handing PHI and to obtain assurances that the information will be protected."

- Jocelyn Samuels, Director, Office for Civil Rights (OCR)

Pre-Contract Diagnosis & Cure

- Enables pre-contract multiple sanctions screening for BAs and Vendors. Built in workflow using various lists and databases such as, OIG exclusion database, SAM/GSA, State Medicaid exclusions, Dun and Bradstreet DB and OFAC lists
- Allows for configurable BA and Vendor assessment prior to contracting
- Allows for pre-contract BA and Vendor risk assessment
- Once a BA or Vendor passes approval, allows for contract conversion for on-going oversight

Post-Contract Protection

- Automated workflow for continuous oversight of all BAs and Vendors
- Allows for continuous vendor sanction screening using OIG exclusion database, SAM/GSA, State Medicaid exclusion, Dun and Bradstreet DB and OFAC lists
- Allows for on-going BA and Vendor risk assessment
- For BAs and Vendors working with PHI (Protected Health Information), this tool allows for on-going continuous risk assessment, which is a required HIPAA mandate.

Healthcare Risk, Security and Compliance Professionals:

Experience peace-of-mind at an affordable price. It's time to discover Aegify BA-Vendor Manager.

YOUR PAIN POINTS FINALLY SOLVED

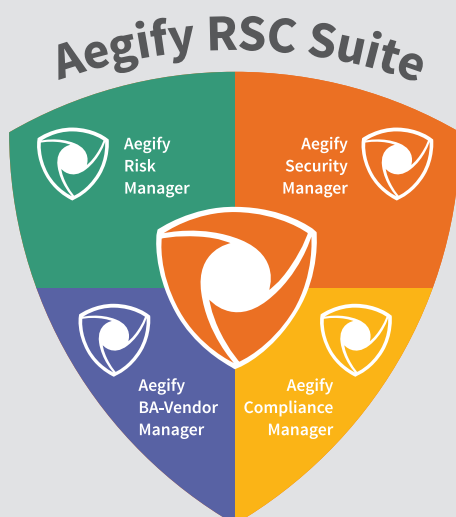

Aegify BA-Vendor Manager is a world's first, completely integrated and comprehensive solution to enable continuous oversight of all BAs and Vendors. Until now, the BA-Vendor risk, security and compliance process has been manual and complicated. Healthcare organizations must:

- Carefully scrutinize all new BAs and Vendors before business is transacted or data is shared
- Perform regular sanctions checks on all existing BAs and Vendors to validate that they can continue working for you
- Conduct BA-Vendor RSC assessments
- Continuous monitoring with complete audit trail
- Protect all PHI and maintain HIPAA compliance

Filling a significant market need, Aegify BA-Vendor Manager is your one stop RSC solution.

ABOUT AEGIFY

Aegify has a comprehensive, integrated and unified SaaS solution for Risk, Security and Compliance Management. Aegify was awarded an innovative technology provider contract by Vizient in Oct 2015 (a subsidiary of VHA/UHC, IT Contract #0130). This year, Aegify was nominated to the 2016 Cybersecurity 500 list of hottest Cybersecurity companies to watch.
